PROFILE

As a student pursuing a career in Artificial Intelligence and Data Science with Reasonable expertise of web development. I have a strong understanding of data science concepts such as data analysis and visualization. I enjoy using my skills to gain insights from data and help solve real-world problems. In addition, I have knowledge and experience in web development technologies such as HTML, CSS, and JavaScript, and I love building websites and web applications from scratch. I am always eager to learn more and to tackle new challenges.
